Key skills

Languages	Russian — Native English — B2 — Upper Intermediate
Skills	Solidity JavaScript HTML CSS Linux Git Python

Further information

About me	Purposeful and disciplined student who wants to be a blockchain smart contract developer. I worked closely with such programming languages as: JS, Python. Recently, I spent a lot of time studying blockchain technology. I also studied the Solidity programming language and applied knowledge of this language in practice to create smart contracts. You can find examples of smart contracts in my GitHub repository.
